

Addendum to Co-Ownership Agreement, September 3, 1996

INTENT

It is the intent and spirit of this Agreement and of the Co-Owners to approach these lands mindful of environmental, social responsibility through a commitment to hold the majority of the common lands in a natural and undeveloped state in perpetuity, and for shared land to remain shared land. We honour the notion that the needs of an individual, couple or small group can be successfully met within a five-acre developed homestead. By removing the lands from the speculative market our intent is to create a balance between limited development and accessible affordable land on which people can pursue their lives within the framework of our Co-Ownership Agreement. It is also the intent of the Co-Owners to make all decisions through a consensus process. We enter this agreement with good will and commitment to making this process work.
